

WHEN YOU NEED HELP WITH FUNDRAISING, YOU NEED A TRUE BLUE FRIEND.

TRUE BLUE AUTO GLASS is a local company with a very old-fashioned idea: consistently superior service. We offer a fresh alternative for comprehensive auto glass replacement and repair. Our team is comprised of knowledgeable, fully trained and certified technicians, working only with materials that measure up to strict Federal Motor Vehicle Safety Standards (FMVSS). Our customer service staff will help your insured file a claim directly, answer any questions, and set up an appointment. And when the work is done, we'll provide a no-hassle written warranty. It's that quick and easy! Naturally, our customers' safety and satisfaction are our #1 priority. That's why we never cut corners: our replacement glass always meets OEM standards, and the adhesives we use are specified by auto industry leaders like Volvo, Audi and BMW. We repair whenever possible, and replace whenever necessary. And the job is only done when your customer is satisfied. We have extensive experience in handling covered losses, and we can also offer your membership multiple payment options for losses which are not covered. Best of all, we'll explain the claims process thoroughly – and we promise to always work in the best interests of everyone. We would like to become the preferred local alternative for your member's auto glass needs. Feel free to contact us at 610-935-5588 or www.trueblueautoglass.com and click on the fundraising link to submit your information so we can get your organization started earning money right away.

HERE'S HOW THE PROGRAM WORKS:

1. Submit your application by following this link. www.trueblueautoglass.com/fundraising/.
2. Within one business day, you will be issued an "affiliate code". This is the 5-digit code you will supply to your membership so that your organization receives credit for any sales generated through your network.
3. In the course of your regular communication with your organization's members, let them know of your partnership with True Blue Auto Glass and share your affiliate code with them. We can also provide you with our logo and one of several advertisements to help you promote the program.
4. Each month, we will generate a sales report and pay your organization a 5% fee based on your total sales for during the previous month (less sales tax). The payment will be made by check or through Paypal – the choice is yours.

It's that easy – a fundraising program you can use indefinitely. There's *no order taking, no products to deliver and no money to collect* from your members. Auto glass repair and replacement services are very common. All you have to do is tell them about our partnership and ask for their support.
